

Exeter and District Kidney Patients' Association

Dear Member

Exeter & District Kidney Patients' Association – Your Contact Choices

Your continuing membership of EDKPA is incredibly important to us. We hope that we can continue to represent your interests – both financial and non-financial, for as long as possible.

When the new General Data Protection Regulations come into force on 26 May 2018, however we will need your specific consent to continue sending you our regular newsletters and other information that we hope will be of interest to you. You should be aware that without your consent we will NOT be able to contact you in the future. It is very important therefore that we would ask you to complete the enclosed form indicating your preferred form of communication. This will also enable us to check that we have your up to date contact details.

Please feel free to tick more than one box. For instance if you tick the “post” box we will only contact you by post. If you tick the “post”, “email” and “telephone” boxes we will take the opportunity to contact you by email where possible.

EDKPA's standard policy in the past has been to share your details with our governing body the National Kidney Federation of whom we are a member and we may have already done this for you. Should you not wish to receive any further communications from NKF you should indicate this to them in response to their recent request enclosed with the latest edition of Kidney Life. EDKPA will not however share your personal data with any third party in the future without your specific consent.

When you have completed and signed the form overleaf, please return it to Jean Aplin our secretary at the address indicated. A pre-paid envelope is enclosed for your use.

Thank you.

Yours

Mel McColm, Chairman EDKPA
